History of this event...

In September of 2004, 12 year old Jeffrey Hayden lost his battle with brain cancer. Shortly after his death, his family established the Jeffrey Thomas Hayden Foundation with the purpose of raising money to fund research and help affected families. To date, the foundation has collected over \$500,000 in donations that have funded research projects at The Ohio State University and Cincinnati Children's Hospital Medical Center. Please help us achieve our goal of finding a cure for this dreadful disease!
